CIRCULAR

Circular No.1116/TGHCL/E&P/INDIRAMMA INDLU/2024, 09/12/2024

Sub: TGHCL– INDIRAMMA INDLU Scheme – Survey of Prajapalana applications through Indiramma Mobile App- Certain clarifications on the Eligibility question(Question no.4) in the App – Circular instructions issued – Reg.

Ref:1.G.O.Ms No.7,Transport, Roads & Buildings (RH & C.A1) Dept., dt.09.03.2024.
2.Launch of Indiramma Mobile App by the Hon'ble Chief Minister dt.05.12.2024.
3.Minutes of the Video conference held on dt.05.12.2024.

***

Govt. has commenced the new Housing Scheme "INDIRAMMA INDLU" for construction of 4,50,000 houses with a financial assistance of Rs.5.00 lakhs with 100% subsidy with the following eligibility criteria.

Vide reference G.O.MS No.7, Dt.03.12.2024 Government allocated 4,50,000 houses @3500 houses per Constituency for construction during the year 2023-24 with a unit cost of RS.5.00 lakhs per house both in Rural and Urban areas to the beneficiaries having own sited or sites provided by the Government in 1st phase and issued operational guidelines for implementation of the programme duly selecting the beneficiaries from out of Praja Palana applications. For verification of the applications received in the Praja Palana a Mobile App is developed.

The Hon'ble Chief minister of Telangana has launched INDIRAMMA INDLU Mobile App on Dt.05.12.2024 for conducting survey for the applications received under Prajapalana 2024 for selection of eligible beneficiaries to take up INDIRAMMA INDLU.

To start the survey, a Video Conference is conducted with all the Project Directors / Dist. Nodal Officers and explained in detail on App functions and instructed to start the survey from dt. 06.12.2024.

In this regard questions are coming from many Districts as to the **criteria**

to be used by the surveyor for determining the eligibility of the applicant while answering the question no 4 in the mobile App.

in this context it is to inform that the eligibility criteria for selection beneficiaries as per GO Ms No.7. is:

a. Household should belong to a Below Poverty Line (BPL) family (to be decided based on Food Security Card)
b. Beneficiary should have an own site or site provided by the Government
c. Beneficiary should be the resident of the village / ULB
d. Households having no house, living in hut / thatched houses / semi-permanent houses (i.e. Mud wall, AC Sheets, tiled roofs)
e. Households living in rented houses
f. Single women / widowers will also be considered.

A copy of the G.O.Ms.No.7, dt.09.03.2024 is enclosed herewith for ready reference. Basically, the family must be BPL(based on the field inquiry of the surveyor) and they shall NOT have a pucca (RCC slab) house. In cases of rented house, even people living in RCC may be rendered ELIGIBLE if they do NOT own any house. In case of certain own RCC houses of small size, if multiple married couples(families) are living under one roof, then they may be ELIGIBLE for fresh sanction if the existing RCC house is too small to accommodate multiple families.

Ownership of house site is a mandatory condition for sanction. However, if the applicant's family is otherwise satisfying all eligible criteria but not having houses site, they may also indicated as ELIGIBLE by the surveyor in the question no.4. However, in the question no.5 (Whether land is available for construction of house), it may be indicated as NO if they do not have a house site. Such eligible cases without house site may not be considered for sanction in the first phase, but such data may be useful in the successive phases.

Hence, it requires proper judgement of the surveyor as per the field condition. That is why surveyor recommendation column was included. However, the system will also give its ELIGIBLITY recommendation to the Collector based on the ELIGIBILITY matrix and data fed into it. Also, 360 degree recommendation bases on collation of various databases will also be available in Collector's login. Collector can take an informed choice based on these three recommendations.

The robust technologies like Machine learning and AI combined with Digital Image processing and GIS in implementation and monitoring of the scheme are being incorporated to cut down the misappropriations / diversions, in coordination with the ITE&C Department. The system shall read uploaded images

by surveyors.

Therefore, the District Collectors are requested to clarify the same to the Surveyors, supervisory officers (village special officers) and the MPDOs/Municipal Commissioners.
